Maryland 1925

22957

Hemalocenchrus
clumps in very wet soil, edge
of water, old C & O canal, near
Plummer's Island

note decumbent slender culms

1926

Crowley, N.Mex 1926

June 28,

8300 ft.
✓ 22958

Poa biglaminata

in an old cult. garden patch

✓ 22959

Poa fendleriana
Poa (longipedunculata)
Grassy slope near stream. Leaves

✓ 22960

Poa fendleriana
Poa (longipedunculata)
Slopes in open woods (pure
species) bunches, culms green
when chlorophyllous, rough below pan-
icle, sheaths more or
less rough, culm smooth
on node near base

June 29

✓ 22961

Festuca Thurberi

Open woods, 9000 ft.

✓ 22962

Poa fendleriana
Poa (longipedunculata)

Open woods, 9000 ft. Not
root stalks. This species produces
short root stalks.

Scaleless. In many
places I could find only partial
plants.

✓ 22963

Danthonia peruviana

Open woods, 9000 ft.

✓ 22964 *Poa?* Too young
Open woods. No root stock
leach rough

✓ 22965 *Melica purpurascens*
Open woods, 8600 ft

✓ 22966 *Poa fendleriana*
(longipedunculata)
Open woods, pebble
8500 ft.

✓ 22967 *Poa fendleriana*
(longipedunculata)
Open sun woods, no root stock
Dig many times, these showed
no rootstock. These rootstocks are
probably found in summer & fall.

~~_____~~
Coville July 10 - Trip to Beatty's Cabin
✓ 22968 *Torula odorata*
Hamilton Mesa, open grassland 10000 ft

✓ 22969 *Festuca arizonica*
Open rocky slope - Beatty's Cabin
9500 ft. just coming into flower

✓ 22970 *Festuca Thurberei*
Rocky slope, Beatty's Cabin, 9500 ft.
Large bunches, the dominant grass here
Good grass.

Set

✓ 22971 *Poa reflexa*
Shady bog - Beatty's Cabin, 9500 ft.

✓ 22972 *Poa interior*
Open dry grassland, Beatty's Cabin
9500 ft.

✓ 22973 *Phleum alpinum*
More open ground near
stream, Beatty's Cabin, 9500 ft.

✓ 22974 *Poa fendleriana*
Psidium *virgata*
Open grassland, Beatty's Cabin
9500 ft.

✓ 22975 *Poa occidentalis*
Aspen woods, on way to
Beatty's Cabin, 9000 ft. fine
Common sub flora

Cloneta, N. Mex. July 2
(all near station)

✓ 22976 *Hilaria juncea*
Open mesa. In colonies.

✓ 22977 *Agropyron smithii*
Mesa on eroded soil. Shrub
pubescent.

✓ 22978 *Agropyron smithii*
same as 977

✓ 22979 *Agropyron smithii*
same as 977. ✓ *V. missouriensis*

✓ 22980 *Agropyron smithii*
same as 977.

977-980 grew together. The aspect
is the same.

✓ 22981 *Oryzopsis hymenoides*
Mesa in eroded soil. Large compact
bunches. 30 to 100 cm tall.

✓ 22982 *Aristida ludoviciana*
 Open mesa, usually in large
 compact bunches as much as 30 cm
 in diameter, the larger bunches dead
 in center (palm rings), brown with
 983 but shortly after the panicle
 whitish brown the leaf colored glumes
 purple but

✓ 22983 *Aristida longicoma*
 Open mesa, much 982, often
 in large bunches like 982, panicle
 purple - not whitish as in 982.

✓ 22984 *Setchouardia paniculata*
 Open mesa. Open...

✓ 22985 *Stipa comata* GRASS
 Open mesa, single culms or
 bunches of moderate size. Also
 a rocky hillside and in open
 pine woods. As much as 1 meter
 tall

✓ 22986 *Stipa vaseyi* GRASS
 Mesa in the middle place, rather
 abundant in places. Large bunches, just
 coming into flower. Not considered
 typical in the high. For 2 plants
 these leaves do not see it alone but with
 other things and are accustomed to it.

✓ 22987 *Bromus japonicus*
 Rather low spreading mat in
 ditch along railroad. Culms
 ascending - brown here.

✓ 22988 *Stipa*
Bank of river, the only bud
seen. 2d full flower. Branch
probably *laetiflora* - *pruina*.
Spreading in anthesis

✓ 22989 *Koeleria cristata*
Eroded hill side, 1 branch in bud
others in anthesis

✓ 22990 *Koeleria cristata*
Open pine woods. ♀ tall form

✓ 22991 *Parthenocissus*
Open mesa, just coming
into flower

Parthenocissus

✓ 22992 *Sitarion hystrix*
Mesa, leaves a size. The slender
bud from open pine woods.

✓ 22993 *Aryzopsis micrantha*
Open pine woods.

~~||||~~

✓ 22994 Bromus (pseudomon?)
Open pine woods

✓ 22995 Stipa
Open pine woods

✓ 22996 Stipa comata
Open pine woods, fine coming
into flower. Older specimens like 985

✓ 22997 Sporobolus (acutellus?)
Open mesa. Sprouting under
somewhat shade, sometimes prostrate
Culms very loosely tufted at base.
Mats, brownish olive

✓ 22998 Anemone (anemone)
Along by track - only plant seen

✓ 22999 Festuca octaphora Nutt.
Open mesa. Small clon tufts

70 duplicates

Santa Fe, July 2

✓ 23000 Sporobolus nealleyi
Prostrate tufts, mesa.

✓ 23001 Muhlenbergia
along mesa in city.

Los Alamos School - 40 miles n.w. S.Fe

✓ 23002 Alopecurus aquatilis
along shore of small fish pond

✓ 23003 Festuca setigera var. latifolia
mesa

✓ 23004 Agropyron tenerum
near irrigation ditch

Anchor Ranch - 50 miles n.w. S.Fe
alt 7500

✓ 23005 Danthonia spicata
near fish pond - bunches

✓ 23006 *Sphenopholis*
Near fish pond

✓ 23007 *Pachyma* *brunneiformis*
Near fish pond

✓ 23008 *Isoetes* *uvulata*
Near fish pond

✓ 23009 *Sporobolus* 80088
Mesa

Discarded

Santa Fe - July 8

✓ 23010 *Sporobolus* *crispus*
Erect, with thick, appressed
panicle, apparently the same as
the previous form, with small
soft included panicle. *rudecta*
common

✓ 23011 *Prona*
Shade of grass near irrigation
ditch. Small, white, velvety

✓ 23012 Sporobolus airoides
Mesa

✓ 23015 Brometum hirtum
Mesa

✓ 23013 Sporobolus cryptandrus
Mesa, in form helianthoides 010
and the prostrate form

✓ 23016 Muhlenbergia
pedunculata
Mesa. Forms gray rings

✓ 23014 Sphaerostylis obtusica
along wing along ditch

Pueblo - July 67
✓ 23017 Chloris verticillata
Mesa

✓ 23018 *Poa (sheldoni?)*

Low place in mesa near artificial lake with *Sesuvium*, *Sporobolus asperifolius*. The *Poa* seems to have creeping rootstocks - I had only my jack knife to dig. Culms erect & very much solitary, somewhat glaucous.

✓ 23019 *Sporobolus asperifolius*
Mesa in low place.

✓ 23020 *Bromus japonicus*
Along shrubs of Pueblo frequent

✓ 23021 *Agropyron tenerum*

In low place with 018. Flours short-armed

✓ 23022 *Eleusine canadensis*

Along shrubs of Pueblo - grassy places. Frequent.

✓ 23023 *Sphenopholis obtusata*

Low place in mesa with 018 mostly in the shade of shrubs.

✓ 23024 *Agropyron tenuis*
Same as 021 in among clumps -
Taller.

✓ 23025 *Puccinellia distans*
Puccinellia distans
along border of artificial lake
Part of large spreading bunch

✓ 23026 *Agropyron smithii* Walle
Mesa

✓ 23027 *Elymus canadensis*
A small bunch along
bank - same as 022.

✓ 23028 *Chaetochloa verticillata*
Ward along banks of Pueblo, frequent

Leadville - Colo - 10000 ft. July 8.

✓ 23029 *Stipa (convexa) montana*
Mesa near Walla, among sage
brush

✓ 23030 *Festuca (brachyphylla)*

Stony slope lower part of spruce belt
dense numerous panicles some-
what open in anthesis.

✓ 23031 *Poa Poa sandbergii*

Stony slope in spruce belt.
One of the common species here
not quite mature. Sandbergii?

✓ 23032 *Poa Poa fendleriana*

Stony slope in spruce belt. Common
looks like *P. longipedunculata*

✓ 23033 *Poa Poa fendleriana*
Probably same as 032

✓ 23034 *Agropyron violaceum*
Spruce belt.

✓ 23035 *Poa reflexa*
Dugby place in spruce belt.

✓ 23036 *Poa fenderiana*
Alpine meadow above timber
P. longipedunculata? Common

✓ 23037 *Festuca brachyphylla*
Alpine meadow above timber
11000 ft. a larger form of 940

✓ 23038 *Poa fenderiana*
Alpine meadow, probably = 036

✓ 23039 *Festuca*
Alpine meadow above
timber, looks different from
F. brachyphylla, (also + more
open patch.

✓ 23040 *Festuca brachyphylla*
Alpine meadow. Panicle
flowers not spreading.
seems different from 039. Both
are common

✓ 23041 *Festuca*
Alpine meadow, probably = 039

✓ 23042 *Agropyron edmondi* (alpine form)
Alpine meadow.

✓ 23043 *Poa*
Near snow line on rocks, 13400 ft
Same as the short one further down

✓ 23044 *Festuca brevis, puffy*
ditto (083)

✓ 23045 *Danthonia, Annual?*
Alpine meadow, immature
12000 ft

✓ 23046 *Poa*
Alpine meadow, 12000 ft
= 083

✓ 23047 *Doronicum idoralis*
Alpine meadow, 12000 ft

✓ 23048 *Poa fendleriana*
Alpine meadow, 12000 ft. com-
mon. (*P. longipedunculata*)

Leadville, Colo., July 9.
Mt. Elbert near Turner Lakes

✓ 23049 *Festuca thurberi*
Open slope, 10000 ft.

✓ 23050 *Stipa comata* *intermedia*
Rusa slope 10000 ft.

✓ 23051 *Poa sandbergii*
Open place in woods, 10000 ft.

✓ 23052 *Gastrea prima*
Open slopes, 10000 ft.
Mr. Rost calls this Pine bunch
grass

✓ 23053 *Stipa richardsonii* Link.
Open place in woods, 10000 ft.

✓ 23054 *Poa* *Poa fendleriana*
low place on hillside
(*P. fendleriana*?)

✓ 23055 *Festuca ovina*
open slopes 11,000 ft

✓ 23056 *Poa wheeleri*
Aspen hill, 11,000 ft

✓ 23057 *Poa fendleriana* *Poa fendleri*
Aspen hill, 11,000 ft
Common. This form is purple

✓ 23058 *Poa fendleriana* *Poa fendleriana*
Alpine meadow, 12,000 ft
Common

✓ 23059 *A. polytrichum* *A. polytrichum*
Aspen hill, a few inches tall
very decumbent - spreading.
Common, 12,000 ft

✓ 23060 *Poa (cupicola?)*
Alpine meadow, 12000 ft
common

✓ 23061 *Poa (fendleriana)*
Alpine meadow, 12000 ft

✓ 23062 *Poa*
Alpine meadow, 12000 ft

✓ 23063 *Poa fendleriana*
Twin Lake Range, Sierra
in clump of sage brush, this growing
tall, 9500 ft *Poa fendleriana*

✓ 23064 *Festuca graciliflora*
Alpine meadow, 12000 ft
common

✓ 23065 *Poa*
Alpine meadow, 12000 ft

✓ 23066 *Poa pulcherrima*
Alpine meadows, 12000 ft
Common *Poa fendleriana*

Graduate - July 10
Viewing of alt. 10000 ft.

23067

✓ 23068 *Poa wheeleri*
Mesa among sage brush, smaller
than in timber

✓ 23069 *Poa sandbergii*
Mesa among sage brush
glaucescens

✓ 23070 *Poa (interior)*
Mesa among sage brush

✓ 23071 *Poa wheeleri*
Open pine woods in a
clump of sage brush

✓ 23072 *Festuca ovina*
Mesa among sagebrush
Common - mostly single clumps
panicled spreading & acaulescent
contraction with base

✓ 23073 *Poa (fendleriana)*
Mesa among sagebrush
Poa sandbergii

✓ 23074 *Poa sandbergii*
Mesa among sagebrush
Sparse

Wasatch National Forest Utah
July 13, Vicinity of Ranger Station - 8000 ft
✓ 23075 *Poa (interior)*
Open grassy slope

✓ 23076 *Bromus (Poa arctica)*
Open grassy slope
Common. Upper part in flower
Panicled not so spreading
Spk seem somewhat more
in more mature

✓ 23077 *Poa fendleriana*
Poa (interior?)
Open grassy slope
All these *Poa* of this region
probably the same - but length
of ligule differs

✓ 23078 *Poa fendleriana*
Open grassy slope

✓ 23079 *Poa pulchra*
Open grassy slope
rather rather wide

✓ 23080 *Poa fendleriana*
Open slope. Heads
rather long

✓ 23081 *Poa alpina?*
Dry meadow

✓ 23082 *Poa reflexa* Set
Common all over the
open meadows - some have
well marked seed stalks
others seem not to have them
but seem to be all the same
species. *P. reflexa* or *aperta*

✓ 23083 *Poa annua*
Open grassy slope
Common in meadows
grasses

✓ 23084 *Festuca ovina*
Common on a plain grassy
slopes, particularly up the
sprading a flower, appressed
siliculate

✓ 23087 *Festuca ovina*
Open slope among sage
brush, ditto - glaucous form
of 084

✓ 23085 *Elymus caudatus*
Edge of woods, Canyon
south of Salt Lake City.
July 12, 1926, M. S. Gentry.
With monardella form.

✓ 23088 *Glyceria (seplum)*
Pond, in water, ditto

✓ 23086 *Poa (monardalis)*
Common in open woods & open
ground, at Danielson's, 10 mi
north of W. Liberty, Danville Va.

✓ 23089 *Poa*
Ditto same as 087

Mill Creek Ranch Co

9000 ft
✓ 23090 *Poa* July 15
Poa open slope

✓ 23091 *Poa*
Aspen woods

✓ 23092 *Poa alpina*
Open slope near stream

✓ 23093 *Poa reflexa*
Open aspen woods

✓ 23094 *Poa*
open aspen woods

✓ 23095 *Poa*
Open slope, glaucous, rather
short, this is a rather low specimen
What seems to be the same is a
much 3 ft tall. Leaves long

✓ 23096 *Poa leptocoma*
bag on edge of timber, 9600 ft
West fork Black, just above Stella
July 14

✓ 23097 *Agrostis (dalmensis?)*
bag - ditto

Utah

Mt Tokewauna (13200 ft) July 17
grass collected above 12000 ft, alpine slope
✓ 23098 *Poa*

✓ 23099 *Poa (mepicola?)*

✓ 23100 *Festuca baeleophylla*

✓ 23101 *Agropyron Scribneri*

✓ 23102 *Quercus montana* Scribn.
The most abundant species at this
altitude

✓ 23103 *Poa*
Small tufts among rocks not
far below summit, about 15000 ft
stems seem to be bent over

Utah
✓ 23104 *Stipa comata* intermedia
Sage brush plain near Mill Creek
Range Station July 15

✓ 23105 *Poa*
ditto

✓ 23106 *Poa*
ditto

Wyo

✓ 23107 *Poa nevadensis*
Sage brush plain near Swansboro
Wyo. July 15

Jackson, Wyo., July 22. - 6200 ft

✓ 23108 *Festuca ovina*
Open aspen woods on steep slope

✓ 23109 *Festuca ovina*
Steep ^{open} rocky slope, in loose tufts

I dug several tufts and could find no creeping root stocks. There is a stem of some caudex and short root stocks of a grass on that come up and form innovations

✓ 23110 *Poa nemoralis*
Open aspen woods on steep slope

✓ 23111 *Poa Poa ampla*
Open woods on steep slope - aspen and spruce.
Stolonous, tall

✓ 23112 *Poa*
dille, Green

Examine the sheets to see if they are all the same.

✓ 23113 *Calamagrostis rubescens* Bueke
Open aspen woods on steep slope

✓ 23114 *Poa*
ditto ... *stolonifera*
(= 112?)

✓ 23115 *Stipa*
ditto *ambrosioides*
below nodes

✓ 23116 *Poa*
ditto - *glauca*

Jack on Hill - Cache Creek - July 23

✓ 23117 *Poa (reflexa)*
On decayed log *Poa reflexa*

✓ 23118 *Poa reflexa*
by track in shade
appears to have root stubs

✓ 23119 *Poa Poa ampla*
Open slope. Big glaucous form

✓ 23120 Poa
Open woods
Seems to have waterlocks

Jackson Hole - Mosquito Creek

July 24

✓ 23121 Poa Poa ampla
Open open woods

✓ 23122 Bromus puberulus
Open open woods
very pubescent

✓ 23123 Trisetum? Gnaphalium?
Open in open woods - rather
moist
Examine some of the Poas for
this

✓ 23124 = 123?

✓ 23125 Poa Poa ampla
Open open woods
bisulcatus

W. side Jenny Lake, Jackson Hole July 26

✓ 23126 *Stipa*
Bare rocky slope

✓ 23127 *Bromus*
Bare rocky slope, no real stalks

✓ 23128 *Caryophyllis*
Bare rocky slope

✓ 23129 *Poa*
Bare rocky slope, very few leaves

✓ 23130 *Bromus cuneatus* (Hook) Shear
Moss woods near lake

✓ 23131 *Spizella monticola* (Linn) Mearns
Bare rocky slope

✓ 23132 *Lanatum* ^{intermedia Vasey}
Barren rocky slope

✓ 23133 *Poa* = 129
Rocky slope on granite, open
sunny
branches of panicle horizontally
spreading, rather stiff. Seems
different from my species found
on this trip.

High Creek Canyon - July 27
✓ 23134 *Ara* *abundans* *purca*
Moist grassy meadow, 8500 ft
Set

✓ 23135 *Poa epilis*
Rocky meadow 9000 ft

✓ 23136 *Agropyron* ^{saxicola (S. & S.) Piper}
Rocky meadow 8500 ft.
erect, culms green at base
seems not much green but
a scrubby

✓ 23137 *Festuca* *maculiflora*
Along ridge, 10000 ft

✓ 23138 *Arrhenatherum*
Stony ridge, 10000 ft, alpine
ground near the rocks, with
the large fern

✓ 23139 *Poa alpina*
Rocky ridge, 10000 ft

✓ 23140 *Agropyron scrubum*
Rocky ridge, 10000 ft

This is probably a. s. —
brides, long, culms spreading
or nodding

✓ 23141 *Poa*
Rocky ridge 10000 ft
Bundles

✓ 23142 *Poa*
ditto

✓ 23143 *Poa*
ditto *Poa sandbergii*

✓ 23144 *Poa*
ditto
Root ducts in stony ground!

✓ 23145 *Poa* (spites?)
ditto

✓ 23146 *Poa reflexa* Vasc. Scub.
Poa (reflexa pens.)
ditto - looks like annual
but probably perennial.

✓ 23147 *Poa epigeis*
Open woods - 9000 ft
Des. ^{ditto}

7200 ft July 28
Near Jackson Lake, 10 miles south
of Yellowstone Park
✓ 23148 *Trisetum*
dry pine woods *spicatum* (L.) Richt.

✓ 23149 *Anthrone intermedia*
dry pine woods - common

✓ 23150 *Stipa columbiana*
Dry pine woods - a small
shrubby form - (possibly with
the larger form)

✓ 23151 *Stipa columbiana*
Dry open woods in
common form

Southern part of Yellowstone
Park
✓ 23152 *Poa* (land here?)
Rocky slope below cliff

✓ 23153 *Stipa lettermanii*
ditto

✓ 23154 *Poa reflexa*
Open woods *Poa reflexa*

✓ 23155 *Trisetum melicoides?*
Wet open valley near
Lower Falls

✓ 23156 *Griselinia (montana)*
Dry woods, Deer Falls

Mesa Verde, Yellowstone Park, July 28, alkali
✓ 23157 Soil around hot springs
Reports mammals

✓ 23158 *Puccinellia*

✓ 23159 *Puccinellia*

✓ 23160 *Aira cespitosa*

✓ 23161 *Pileum pratense*
Showering of soil & alkali
purple, purple

✓ 23162

Danthonia

✓ 23163

Danthonia
erect, slender

✓ 23164

Tritium (ovine)

Twoagwalle Pass, N.E. part
of Teton Forest - 9000 to 11000 ft
✓ 23165 Poa reflexa July 29
moist open ground - at Pass
Poa reflexa

Pass - 9600 ft
Summit of Two Ocean Mt. - 10600

✓ 23166

Poa Poa ampla
open ground, 8 miles
below pass

✓ 23167

Poa
Ponds on Two Ocean
Mt., alpine - 11000 ft

✓ 23168 Poa
= 167, somewhat lower
alt.

✓ 23169 Poa ^{Poa reflexa}
(reflexa)
Boggy place, above pass, in timber

✓ 23170 Festuca brachyphylla
Near summit of Two Ocean Mt

✓ 23171 Poa
Lillo (170) Poa sandbergii

✓ 23172 Poa
ditto

✓ 23173 Festuca longicaulis
Rocky slope, above tree line
Two Ocean Mt

✓ 23174 ^{Poa reflexa} *Poa reflexa?*
Below summit of Treadwell Mt
moist place

✓ 23175 *Agropyron serotinum*
Below summit of Treadwell Mt
Rocky slope - culms prostrate

✓ 23176 *Drymonia pumillana*
Sandy open ground at Pass

✓ 23177 *Festuca brachyphylla*
Open ground at Pass

✓ 23178 *Agrostis noronae*
ditto

✓ 23179 *Poa*
ditto

✓ 23180 *Poa sandbergii*
ditto

✓ 23181 *Sandersonia intermedia*
ditto Valley

✓ 23182 *Melica*
ditto

✓ 23183 *Poa Wheeleri*
Open woods at Pars

✓ 23184 *Festuca ovina*
Open grassland at Pars

✓ 23185 *Poa sandbergii*
ditto

✓ 23186 Poa
ditto

✓ 23187 Poa Poa ampla
In clump of sagebrush, east of
Moran, glaucous

✓ 23188 Festuca ovina
ditto

✓ 23189 Poa
ditto

✓ 23190 Poa nemoralis
ditto

✓ 23191 Ceryzopsis alpestris
ditto

✓ 23192 *Stipa richardsonii*
Open aspen woods, dello

Jackson Hole - Upper Hoback River

July 31

✓ 23193 *Poa*
Partial shade in rather dry soil -
Low stalks

✓ 23194 *Elymus junceus*
dello
Among divergent
